

# HyperDAO's Team Profile

**HyperDAO.com**

## Jayden Wei

/ Co-founder and Head of Strategy /

Jayden Wei is a pioneer investor in Australia's fin-tech industry. Having graduated from Monash University with a Master's degrees in Accounting and Finance, he founded Collinstar Capital (2015), a leading blockchain company in Australia and consequently established Australia's first blockchain venture capital fund, Blockchain Ventures (2017). He also founded a successful and highly popular crowdfunding platform which has become known for being one of the most efficient and successful crowdfunding platforms available. With an active user base of over 50 000 users, the platform has successfully helped raised over \$30M for more than 100 projects in the last two years.

Having been actively involved in fund management aspects of the financial sector, Jayden is extremely experienced and well acquainted within Australia's financial industry. He is especially proficient with blockchain and cryptocurrency investments, incubating blockchain-related start-ups, book building and helping clients raise capital. Currently, he is both the executive director of Collinstar Capital and the Founder of Blockchain Ventures. He has been invited by the Australian Trade Commission to attend the New York Consensus as part of the Australian delegate and as an industry representative since 2017.

## Ryan Ang

/ Co-founder and Head of Operations /

Ryan Ang is a cryptocurrency and blockchain enthusiast who has joined Collinstar Capital in 2017 as a fund manager. He is currently serving as the Director of Blockchain Ventures. Ryan is primarily involved in investment management and oversees the daily operations of the fund. He also leads the investment due diligence team and is responsible for the management of over 40 investments in the fund's portfolio. Prior to joining Collinstar Capital and Blockchain Ventures, Ryan worked in the private equity and asset management field in Singapore. He had also performed consulting work for companies in Australia. He holds a Bachelor's degree in Commerce with a double major in Finance and Management from the University of Melbourne.

## Grégory Aillaud

/ Head of Innovation /

Grégory is a blockchain lawyer with a passion for technological development & innovation, with previous experience as Head of Legal at the Blockchain Centre, judge assistant in Tribunal de Grande Instance and M&A Corporate lawyer at Mercedes-Benz. He currently serves as the Legal Advisor to Reserve Currency Solutions RCS SA, Globcoin Limited, Blockchain Centre (Melbourne), Victorian Legal Services Board and the Law Society of New South Wales. He is admitted to the bar as solicitor and barrister for the Supreme Court of New South Wales and Supreme Court of Victoria. Grégory graduated with a LLM in European Business Law from the University of Aix-Marseille III and a Masters of International and European Law from the University of

Tours.

## Nathan Hunt

/ Head of Government Relations /

Nathan Hunt has served on the Board of Directors of the Canada Eurasia Russia Business Association since 1996. He was Chairman of CERBA's National Board of Directors from 2009 through 2013 and Chairman of the Moscow Chapter of CERBA from September 2001 to present.

Hunt's US-based holdings include HunTel Engineering, a Nebraska corporation specialising in fiber optics engineering for LECs and internet service providers in Middle America. He has developed good relationships with various governments through partnerships for projects in the advanced technology sector. This led him to establish the market forecasting project Bettium based on blockchain technology in 2017 and joined

HyperDAO in 2019.

HyperDAO

## Zhang Zhen Tao

/ Head of Technology and Product /

Zhang Zhen Tao graduated from Nanjing University with a major in Information and Computing. He has more than ten years of research and development experience and more than eight years of engineering management experience. As the technology consultant for a US-based information security company, he was engaged in cybersecurity development. Afterwards he worked as the senior architect in Asiainfo-Linkage, and is responsible for design and development of the national telecom operators' core system. In his tenure, he has helped achieved breakthroughs in migration of technologies, such as cloud computing and parallel data processing. Zhentao is currently responsible for technology management and architecture for the team.

# HyperDAO

## Sung Joon Hwang

/ Head of Korean Business Development /

---

Sung Joon Hwang is an Oracle representative and one of the important Key Opinion Leaders in the Korean blockchain industry. He is highly competent in the management of Oracle databases, cloud computing and blockchain community development and management. He is also a qualified Oracle Java Programmer. Hwang used to work at SAS, a leading MNC in data analysis, as a Sales Account Executive and has a master's degree in Industrial Engineering and a Bachelor's degree in Electronic Engineering.

## Faisal Mehmood

/ Technology Advisor /

Faisal aka “Electo” is very active in trading communities and provides a lot of constructive and technical feedback and education around bitcoin and trading. He was a co-founder of Litecoin (2012) and has moved on to other well-known blockchain projects such as HyperLedger and IPFS. Prior to this, Faisal worked with many of the top 100 fortune companies to create and implement prediction-based models based on both machine learning (AI) and trend analysis. He now holds the CTO position for a fintech startup called BlockLedger.

## James Halt

/ Advisor /

Being the Co-Founder of PALcapital, CryptoOracle, CryptoMondays, PALgenesis Fund, NXTPLabs, Climate-Coin, Condo.com, Houses.com, and StartupHub.nyc, James Halt has a good knowledge of the forming, managing, advising, fund raising, and business development for start-ups.

James also has significant experience with internet apps and platforms, cryptocurrencies, integrated media, online advertising, telecommunications, energy, emerging markets, financial consulting, real estate and venture capital. Currently, he focuses on developing distributed ledger technology and other decentralised, secure data solutions for enterprises to improve security and speed of transactions in various industries.

## William Rittmeyer

/ Advisor /

William first forayed into cryptocurrencies in 2012 by investing in Bitcoin. He currently serves as an executive in Arena Foundation. William has been active in the cryptocurrency space for over 7 years and have invested in over 50 projects in the period. He is primarily involved in helping HyperDAO engage the audience in the US and introduce partners to the project. As a student, William received a full-ride academic scholarship under the Zell Miller Foundation and graduated from the University of Georgia in Biomedical Engineering and Economics from the Terry School of Business.

## Mohammed Shafiq Maitla

/ Advisor /

Shafiq has had all-round experience of over 30 years in the fields of business development on many global projects including work with the Royal Saudi Air Force, Prince Sultan Air Base and the US Army Corp of Engineers. He has also provided construction management services to contractors for the construction supervision of projects worth US\$32 billion under the ambitious historical programme of the Royal Commission Jubail & Yanbu of Kingdom of Saudi Arabia. Currently, he serves as the Chief Executive Officer of Blockchainmultiply which aims to bring proficient individuals with proven skills in the fields of cryptocurrency, blockchain, artificial intelligence, digitization and cyber security on board to introduce the latest technologies to leading companies and associations in the world.
